

OsteoAid ADVANCED

Enhanced joint repair and mobility support for dogs.

Vetsense OsteoAid Advance is a premium supplement designed for active and aging dogs needing extra care for their joints. Formulated with a comprehensive blend of high-potency ingredients, OsteoAid Advance goes beyond basic joint support to promote flexibility, reduce stiffness, and enhance overall mobility.

KEY INGREDIENTS:

Green Lipped Mussel, Curcumin, *Boswellia Serrata*, Glucosamine Sulphate, Chondroitin Sulphate and MSM.

KEY BENEFITS:

- ✓ **Comprehensive Joint Protection:** Features Glucosamine Sulphate, Chondroitin Sulphate and MSM to strengthen cartilage, reduce joint wear, and support healthy connective tissue.
- ✓ **Natural Anti-Inflammatory Power:** Contains Green Lipped Mussel, Curcumin and *Boswellia Serrata* for potent, natural joint-soothing benefits, helping reduce inflammation and discomfort.
- ✓ **Bone Strength & Resilience:** Fortified with Calcium, Vitamin D3 and Manganese to support strong bones and maintain healthy skeletal structure.
- ✓ **Joint Cushioning & Lubrication:** Hyaluronic Acid helps maintain joint fluid, enhancing mobility and reducing joint friction.
- ✓ **Antioxidant Protection:** Vitamin C and Lecithin work together to support cellular repair, immune function, and overall vitality.
- ✓ **Irresistible Taste:** Made with Cod Liver Oil and natural Roast Chicken flavour for a taste dogs love, making every dose a treat.

Give your best friend the freedom to move with confidence. Choose Vetsense OsteoAid Advance for stronger, healthier joints.

DIRECTIONS FOR USE

DOSE RATE

For severe joint and mobility issues, we recommend visiting your preferred veterinarian.
